HARMONY OF SHADES WITH AND EXOTIC CHARM

Natural warmth and texture. Contemporary minimalism and severity. Designed to recreate the seamless beauty of nature, this material, available with a glossy finish in natural tones, offers a sense of intense harmony and comfort. Captures the classic and contemporary spirit in an assertion of the more traditional, while at the same time more ground breaking ceramic tiles.

Recovering the most realistic aspect of the hydraulic tiles involves a detailed relief that gives more credibility and value to the tiles, which also have that slight bit of wear afforded by the passage of time. precisely one of the strong-points of this collection, which is born thinking of large sizes and large projects but is also available for small areas and modest ideas. Taking grey as a starting point.

Several series of decorations in the same shades that provide a geometric touch and break with the sobriety of large pieces and no end spaces
